

DESCRIPTION OF THE EXAM

The exam will consist of different kinds of questions:

- ▶ **Identifications** (6 or so) — you'll be provided with a term and you'll need to give (a) a description of what it refers to and (b) its significance or importance. All the identification terms will come from this sheet.
- ▶ **Multiple choice** (6 or so)
- ▶ **Short answer** (2 or 3) — like a quiz questions, a paragraph or two on a specific topic we've discussed
- ▶ **Essay** (1) — a longer discussion giving your interpretation and analysis of a major theme we've covered

Approach to Preparing

- ▶ Make a list of the five or six most important milestone events the West has experienced between 1500 and the point we've reached in class.
 - CAUSES — Make sure you can identify the most important factors that helped cause these events — including long-term factors ("the environment") and short-term factors ("the spark")
 - LEGACIES — Make sure you can identify the legacies of the milestone event. How did it change the culture, society, etc.? What impact did it have on future milestones and events?
- ▶ For each of the questions below, see whether you have a strong idea how to answer it, an okay idea how to answer, or a weak sense of how to answer it. Review from the books and notes at least the "weak" ones.
- ▶ Take note of the terms and review ones you're unfamiliar with.
- ▶ Look through the primary sources you've read and be prepared to discuss the meaning of at least one of them.
