

FINAL EXAM REVIEW SHEET

The exam will consist of two sections:

- (a) **Identification and Impact** — I'll have a few terms and ask you to discuss what they mean and their importance.
- You'll choose terms you're most comfortable writing about from a selection (so if I ask for 5, I'll give 10 terms).
 - All of the terms will come from this sheet.
 - Remember, the definition itself will only be half of this question — you must also be able to discuss in detail why it's important.
- (b) **Essays** — I will ask you to write two essays having to do with overall themes of the course.
- You will need to provide an ARGUMENT supported by three solid EXAMPLES on topics relating to major themes and transformations of the Romans and their world.

There will be some kind of extra credit. The essays will count for most of the grade on the exam (around 60%).

Approach to Preparing

- Make a list of the most important milestone events in the periods we've discussed.
- CAUSES — Make sure you can identify the most important factors that helped cause these events — including long-term factors (“the environment”) and short-term factors (“the spark”)
- LEGACIES — Make sure you can identify the legacies of the milestone event. How did it change the culture, society, etc.? What impact did it have on future milestones and events?

Using this review sheet

- For each of the questions below, see whether you have a strong idea how to answer, an okay idea how to answer, or a weak sense of how to answer. Review from the books and your notes at least the “weak” ones.
- Approach the questions below as a means of gauging topic to spend more time with in review, and as a guide to how you'll express and illustrate what's really important—the larger themes of the course.
- Take note of the terms below and review ones you're unfamiliar with.
- Note that there is seldom one and only one answer to the kind of questions on this review sheet.
 - WHY almost always means “For what reasons...?”
 - HOW almost always means “In what ways...?”

Preparation for the essay

- Try to come up with possible essay questions and map out in advance the kinds of examples and interpretations that might pertain.
- Topics that might relate to important periods of change—wars or reforms that changed everything, and so on.
- Discussion groups can be helpful in comparing others' interpretations of topics and ideas with your own.
- In the essays you should be able to talk about, and use as examples, relevant documents from the Reader.

Concerning dates

- I'm not going to ask you for exact dates but you should know the period in which a people are important or an event occurs, and which events occur before or after which other events.
- You're best off if you know centuries (e.g., the war with Hannibal takes place in the 3rd century BCE).
- At the very least you should know the period — whether a person, event, or concept is associated with
 - the Regal period (Founding of Rome up through the ejection of the Tarquins),
 - the Republic (Ejection of the Tarquins up through Octavian's defeat of Antony at the Battle of Actium),
 - the Principate (Actium/Augustus up through the Third Century Crisis), or
 - the Dominate (Diocletian/Constantine through the fall of the western empire).
