5

---

---

---

---

---

---

### Why is gender in antiquity so difficult to study?

- Evidence from the ancient era is fragmented
- ... tends to be written by men
- ... tends to deal with the public space
- ... is written by the upper classes
- Interpretation is shaped by modern ideas

**EPITAPH TO CLAUDIA**

Friend, I have not much to say; stop and read it.  
This tomb, which is not fair, is for a fair woman.  
Her parents gave her the name Claudia.  
She loved her husband in her heart.  
She bore two sons, one of whom she left on earth,  
the other beneath it.  
She was pleasant to talk with, and she walked with grace.  
She kept the house and worked in wool.  
That is all. You may go.

**EPITAPH TO AMYMONE**

Here lies Amymone, wife of Marcus,  
best and most beautiful, worker in wool,  
pious, chaste, thrifty, faithful, a stayer-at-home.

**FROM EURIPIDES, MELANIPPE CAPTIVE**

"Women are better than men, as I will show . . .  
Women run households and protect within their homes  
what has been carried across the sea, and without a  
woman no home is clean or prosperous.  
Consider their role in religion . . . women prophesy the will  
of [Apollo] Loxias in the oracles of Phoebus . . .  
Why is it, then, that women must have a bad reputation? ...  
There is nothing worse than a bad woman, and nothing  
better in any way than a good one, but their natures differ."

---

---

---

11

**FROM CARCINUS, SEMELE**

"O Zeus, why need one say evil of women in detail?  
It would be enough if you merely said woman."

### Periodization

- Historians divide history into "eras" based on how we can characterize society
- Archaeologists divide history into "ages" based on changes in prevalent technology
- These periods help organize our studies, but also overgeneralize places and times within each period

### Evidence

Understanding evidence helps us get a clearer understanding of the past.

### Kinds of evidence

- Primary source
  - Eyewitness testimony from the place and time being studied
- Secondary source
  - A scholar collects and interprets primary sources on a subject
- Tertiary source
  - General scholarly consensus on a subject
  - Includes encyclopedias, textbooks, and almost everything on the web
  - NOT ALLOWED as a source for history papers

37

---

---

---

---

---

---

---

---

### Problems with primary sources?

- Intentional bias
- Unintentional bias
- Point of view
- Survival

**CONCLUSION:**  
There are no facts in history

“Books are not made to be believed, but to be subjected to inquiry. When we consider a book, we mustn't ask ourselves what it says but what it means.”
